

COMING HOME

at the Steirereck Inn on the Pogusch as a service staff

Being part of a team of the best is inspiring, educational, motivating, rewarding, collaborative, formative and challenging.

This special team is accepting more members:

In our house we are looking for personalities & hosts with a passion for their profession, who have an appreciative approach to the unique products of our farm and our producer friends. We always keep one goal in mind: to create a unique experience for our guests that is close to nature.

As a service employee, you will work as part of our service team and ensure the well-being of our guests at your own station or at the Schankkuchl.

Authenticity and product honesty are deeply anchored in our philosophy and are lived by all members every day. For more than 25 years we have been running a biodiverse farm with lambs, pigs, goats and chickens around our inn. The quality of our food is legendary and is highly appreciated in our kitchens on the Pogusch and in the Steirereck in Vienna. Species-appropriate animal husbandry, appreciative farm slaughtering as well as their processing from head to toe are a matter of course for us and can also be experienced by our team.

Since 2021, we have been cultivating more than 500 different useful plants in our kitchen garden and in our glass houses around the Wirtshaus am Pogusch. In the process, they get to know an extraordinary variety of plants and their uses.
